does not apply to vessels actually used in their rescue of persons in distress;

- (3) At a speed greater than idling speed or eight miles per hour, whichever is the lesser, within 100 feet of any shoreline, float, or wharf, or between the shoreline and the safety buoy and/or safety buoy line except as provided in subsection (b) of this section.
- (b) For the purpose of launching and returning any water skier or other person being towed by or attached to a vessel and only for such purpose, any vessel towing said person(s) may be operated within 100 feet of any shoreline, float, or wharf, or in the water area of the Lake between the shoreline and a safety buoy and/or safety buoy line; provided, that:
 - (1) While launching or returning, said vessel moves at a speed not greater than 35 miles per hour;

 - (3) While moving inward toward the shoreline, float or wharf, said vessel shall approach the shoreline at an angle of not less than 45 degrees nor more than 60 degrees with the shoreline on the starboard side of said vessel;
 - (4) That after any returning water skier or other person being towed releases the tow rope of said vessel, said vessel shall move at a speed not greater than idling speed or eight miles per hour, whichever is the less;
 - (5) That no launching or returning person(s) being towed shall be allowed from a dock or shoreline without the owner's prior permission;

Provided, further that if water ski launch floats or jumps be provided for the launching or use of water skiers, the City Council may regulate use operations to and from such floats or jumps.

Provided further, that nothing herein shall require the City of Lake Stevens to install, mark or maintain such flats or jumps. (Ord. 1042, Sec. 2, 2018)

10.20.090 Motorboats - Right-of-Way.

Every motorboat shall at all times yield right-of-way to sailboats, rowboats, water skiers, swimmers and divers. Every motorboat shall yield to other motorboats in accordance with the "Inland Steering and Sailing Rules" promulgated by the United States Coast Guard.

10.20.100 Vessel Operation -- Overloading.

No person shall operate, or being owner or in charge shall authorize any person to operate, any vessel loaded with passengers or cargo which exceeds the particular vessel's maximum safe loading capacity. In addition to penalties which are provided for the unlawful operation of such vessels, the officer may require that any such overloaded vessel immediately put to shore to lighten its load.

The maximum safe loading capacity of any vessel shall be determined by the officer, taking into consideration the size, configuration, construction, type and condition of the particular vessel; provided, that where the manufacturer of any vessel has specified the maximum safe loading capacity for the particular vessel, such specified maximum shall be considered the maximum safe loading capacity of the particular vessel for the purposes of this title.

Provided, further, that in the absence of capacity plates, the following formula may be considered:

A. First, a check of the number of persons.

$$\frac{L \times B}{15} = \text{number of persons}$$

L = Overall length

B = Maximum width (both dimensions in feet and tenths of a foot). The result taken to the nearest whole number gives the number of persons that can be put aboard without crowding in good weather conditions.

B. Second, the weight-carrying capacity shall be ascertained by determining the allowable weight in pounds from the expression:

$$7.5 \times L \times B \times De = \text{pounds for persons, engine, fuel and equipment}$$

L = Overall length

B = Maximum width

De = Minimum effective depth of the boat

Measure "De" at the lowest point that water can enter. This takes account of low transom cut-outs or credits an acceptable engine well. All dimensions are in feet and tenths of a foot.

The weather and water conditions shall also be taken into account. If the water is rough, the number of persons carried shall be reduced.

10.20.110 Yielding Right-of-Way to Authorized Emergency Vessels.

It shall be the duty of the master, owner or operator of a vessel or watercraft to reduce speed and if necessary stop ~~his~~their vessel or watercraft, at the same time yielding right-of-way as otherwise specified in this title, upon the approach of an authorized emergency vessel or watercraft displaying an emergency light and/or sounding a siren and while actually responding to an emergency or in immediate pursuit of any violator of the law.

10.20.120 Aircraft.

- A. All vessels or watercraft shall keep clear of seaplanes landing within any area now or hereafter set aside by law for such purpose.
- B. All aircraft must comply with the Civil Air Regulations (14 CFR 91.69) as now enacted or hereafter amended which govern seaplanes upon the navigable water of the United States and conform with the Inland Rules of CG-169 applicable to vessels.

10.20.130 Inattention.

10.20.140 Interference with Navigation --
Disturbing Other Boats.

- A. No person shall operate any watercraft or vessel in a manner which shall unreasonably or unnecessarily interfere with other watercraft or vessels or with the free and proper navigation in the waters of the City.

businesses, owners or possessors of real property on the waterway or public use area of the waterway is prohibited.

- (b) The operation of such audio system, such as radio, tape player, disc player, portable media player, docking stations or any other electronic sound reproduction device, from a watercraft in such a manner to be audible to those outside the watercraft at a distance of 100 feet or more from the source, as best that point can be estimated without the use of any distance-measuring device, regardless of the time of day, shall be prima facie evidence of a violation of this section.
- (c) And provided further, that vessels or watercraft participating in a City sponsored or permitted event in which watercraft participation is a planned element of the event shall not be in violation of this section.
- (d) Violation and Penalty.
 - (1) Failure to comply with any provision of this chapter or violation of any provision of this chapter is a civil infraction for first and second offenses occurring within a 365-day period. For the first and second offense the fee for such violation shall be set equivalent to the basic rule violation as set forth in the Justice Information System (JIS) Law Table as published by the Administrative Office of the Courts.

The arresting officer, in lieu of impound may release the watercraft to a person who, in the officer's opinion, can safely operate the watercraft or vessel or secure said watercraft or vessel to a moorage facility when same has been approved for such purpose. The owner or operator of the watercraft or vessel must sign a waiver of impound to allow the arresting officer an option other than impounding the watercraft or vessel.

- B. All vessels and watercraft required to be licensed and/or registered shall carry such certificate of license or registration in the vessel or watercraft and shall present same to any federal, state, county or local law enforcement officer upon request.
