The splash pad art is in-progress and a scholarship will be rewarded by the Arts and Parks Foundation to a student in the school district. Marlene Sweet has been watching the eagles nest near the lake. Roger Schollenberger mentioned the grass is long along the ROW by the 7/11 by SR 204. Bryan

2) Comprehensive Plan Update

- Coordinator Jill Meis informed Board members the City of Lake Stevens updates their Comprehensive Plan each year to incorporate necessary changes and remain responsive to the community. The minor updates for the Parks Chapter/Parks Plan include small changes such as completed projects that need to be moved from development to built to be added to the parks inventory. Staff provided a red-lined version of the chapter to the Board for review and requested feedback. No comments or feedback from the board. Next action item to be approval of Comprehensive Plan.

3) Sunset Park Design

- Per Coordinator Meis, Sunset Park is experiencing some shoreline erosion and dock safety concerns which have been prioritized for action and site planning. This site is not traditional with constraints of size, steep slope, no utilities, and parking sight-line visibility. Coordinator Meis presented the constraints for the Park Board to keep in mind during the planning for this site. Members discussed desire to keep the site simple and concerns of lack of railings, signage, and parking. Staff is asking Park Board to host a public open house in July to discuss park design. Members tentatively agreed on July 21st.

4) Parks Update

- Centennial Woods: Staff will be meeting with Puget Sound Energy to discuss possibly acquisition and viability of site for pump track.
- Trail Master Program: Staff continues to work through acquisition of easements to construct phase 1 along the utility corridor. The City has moved forward with drafting the lawsuit for condemnation.
